Employment

2021 — Pres.

Frontend Developer at KnowmadMood

Building and maintaining features in large codebases, using diverse web techs. Agile methodologies, teamworking to creatively solve complex problems. Involved in significant international projects for logistics and media.

2015 — 2016

Intern at New Kings Coffee Ltd.

As an SEO Analyst for a London-based startup, I conducted comprehensive market analyses, crafted engaging and SEO-optimized content for the blog, and led the redesign of their website.

2016 — 2018

Founder at Hawks Gaming Esports

Founded a semi-professional esports club from the ground up, cultivating a skill set in team management, graphic design, video editing, social media management, and webmaster responsibilities.

2017 — 2021

Freelance digital services

Offered a comprehensive array of digital services, encompassing web development, SEO analysis, graphic design, and digital brand identity development and digitization.
